

Submission of abstracts for 2019 World Congress of Tennis Medicine and Sports Science

We welcome abstract submissions to the **World Congress of Tennis Medicine and Sports Science**. The theme of the congress is to “Connect Professions and Generations”, and objectives are to deepen the knowledge in the areas of orthopedic surgery, rehabilitation, prevention, well-being, psychology, nutrition and high performance within tennis medicine or other overhead sports. We welcome any original research contribution fitting into the theme and the objectives as an abstract submission.

The abstract submission template contains the following mandatory headings in addition to a heading of a maximum of 150 characters: **Introduction, Materials and Methods, Results and Conclusion**. The abstract cannot exceed 250 words including headings. Full name, country of residence, title, and affiliation are required for all listed authors.

The scientific committee will judge the scientific quality and the novelty of the abstracts and decide on which abstracts that shall be invited to be presented as a poster at the congress. Please be aware that all accepted abstracts will be available in the congress website for congress delegates.

Abstract shall be submitted to eva.skillgate@shh.se no later than June 10th 2019. Decision on acceptance will be presented no later than June 25th 2019. Instructions for poster presentation will be provided with the notice of acceptance. There will be an award for the best poster at the congress, based on the summed scores of the Scientific Committee.

Important dates:

Abstract submission opens: April 1st 2019

Abstract submission deadline: Was June 3rd 2019, **now postponed to June 10th**.

Abstract scientific committee chair is Professor Eva Skillgate.
